Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The entity has adopted integrated pest management (IPM), which is a sustainable approach to pest control that minimizes chemical pesticide use. IPM focuses on prevention, biological control, and targeted pesticide application as a last resort. This promotes eco-friendly practices and long-term sustainability in pest management, such as promoting the use of organic pesticides to reduce toxic chemical loads. The entity adheres to the Pollution Control Board (PCB) guidelines in storing and safely disposing of hazardous waste to PCB-authorized vendors. The filtration plant has been made in the outlet drain of the factory and gardens to minimize the discharge of hazardous wastes into natural bodies. Rainforest management policy is being followed in the estates. A centralized waste collection procedure is followed in all sites and the collected wastes are disposed of to the vendors authorized by the PCB.
